

# Directions:

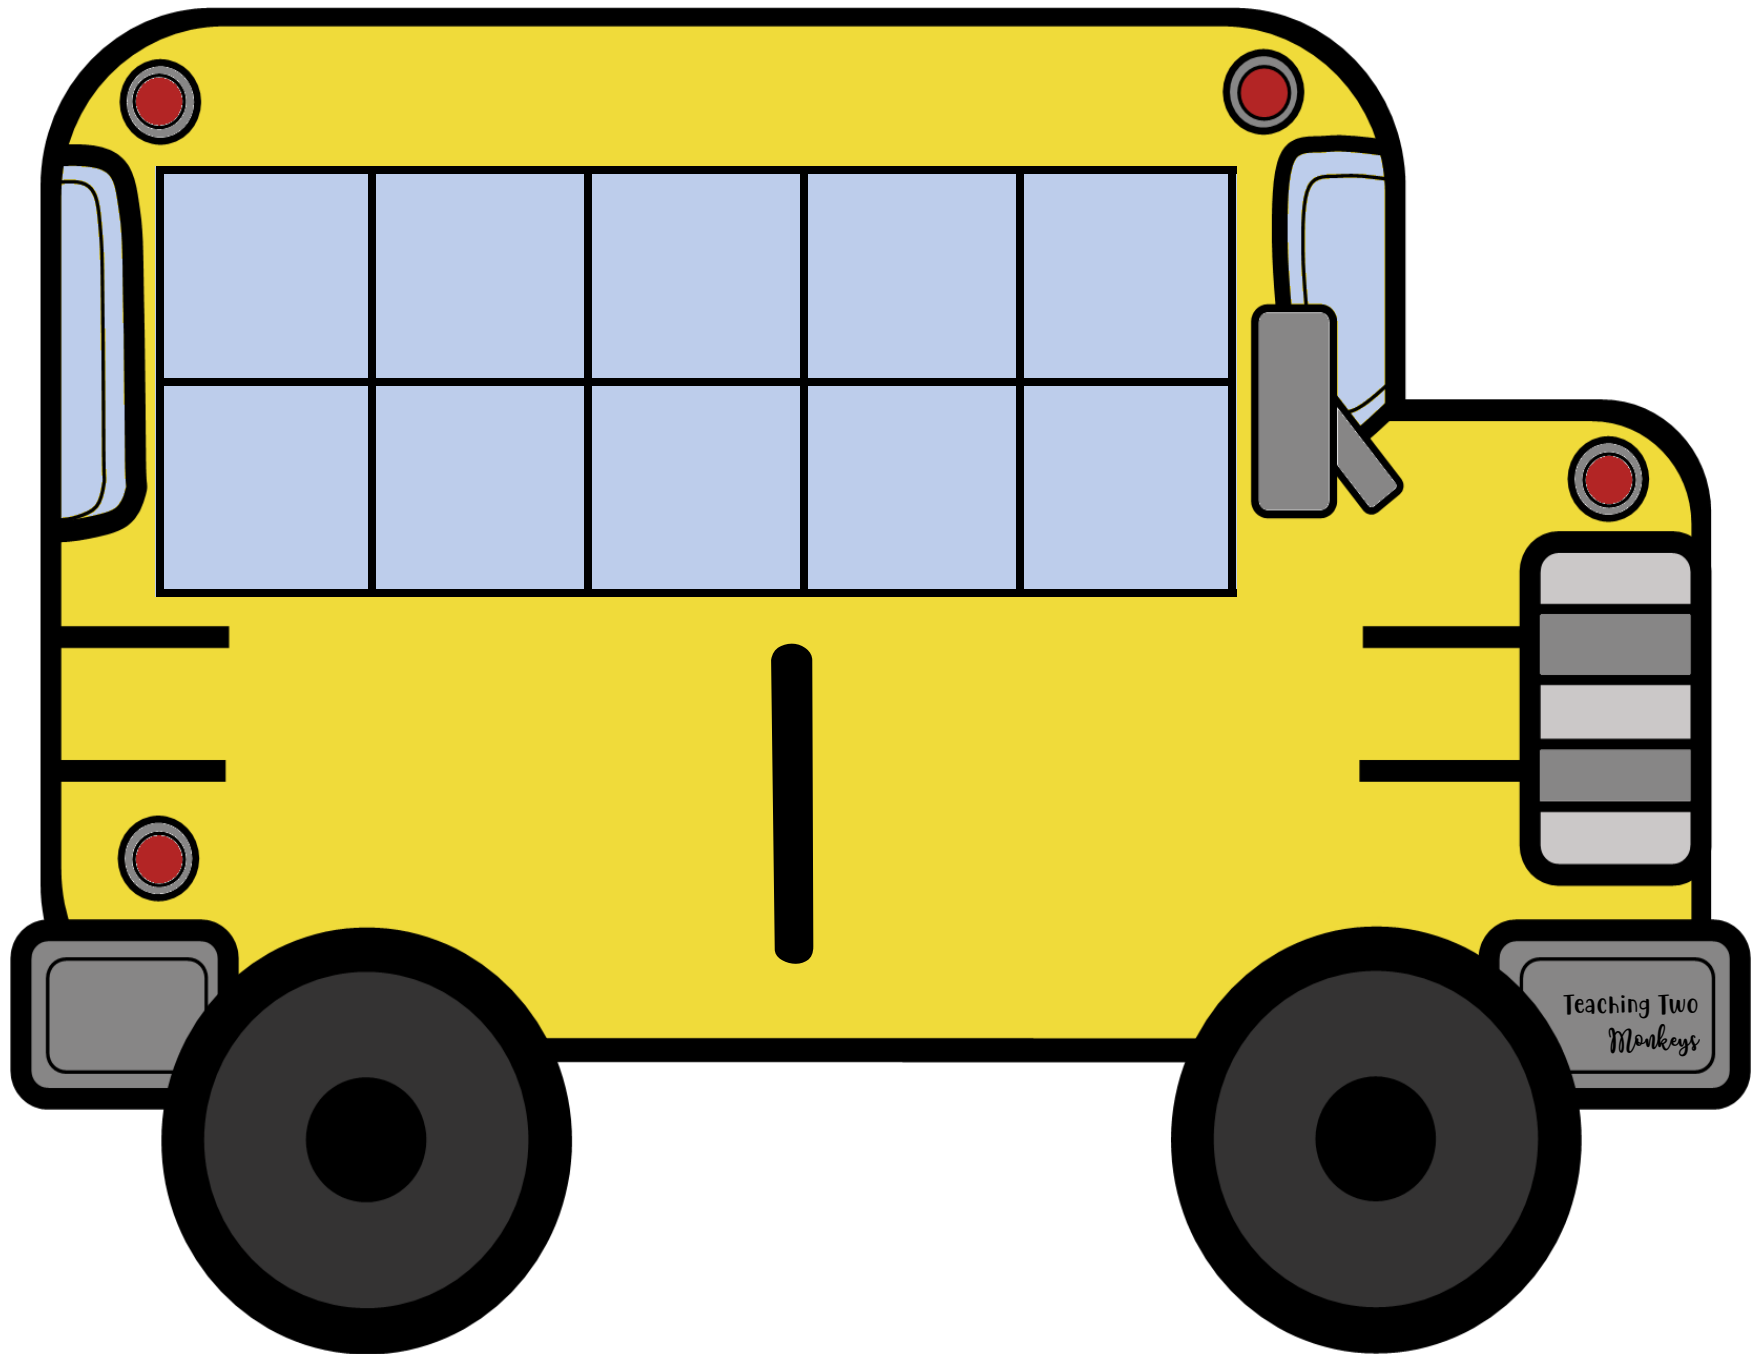

1. Print out and laminate the following pages.
2. Cut out the school buses or leave them as they are as cards for faster prepping.
3. Cut out the bear counter tiles or use your own counting bears!

Students choose a school bus. Say the name of the numeral on the bus. Count out the correct number of bears in the ten frames.

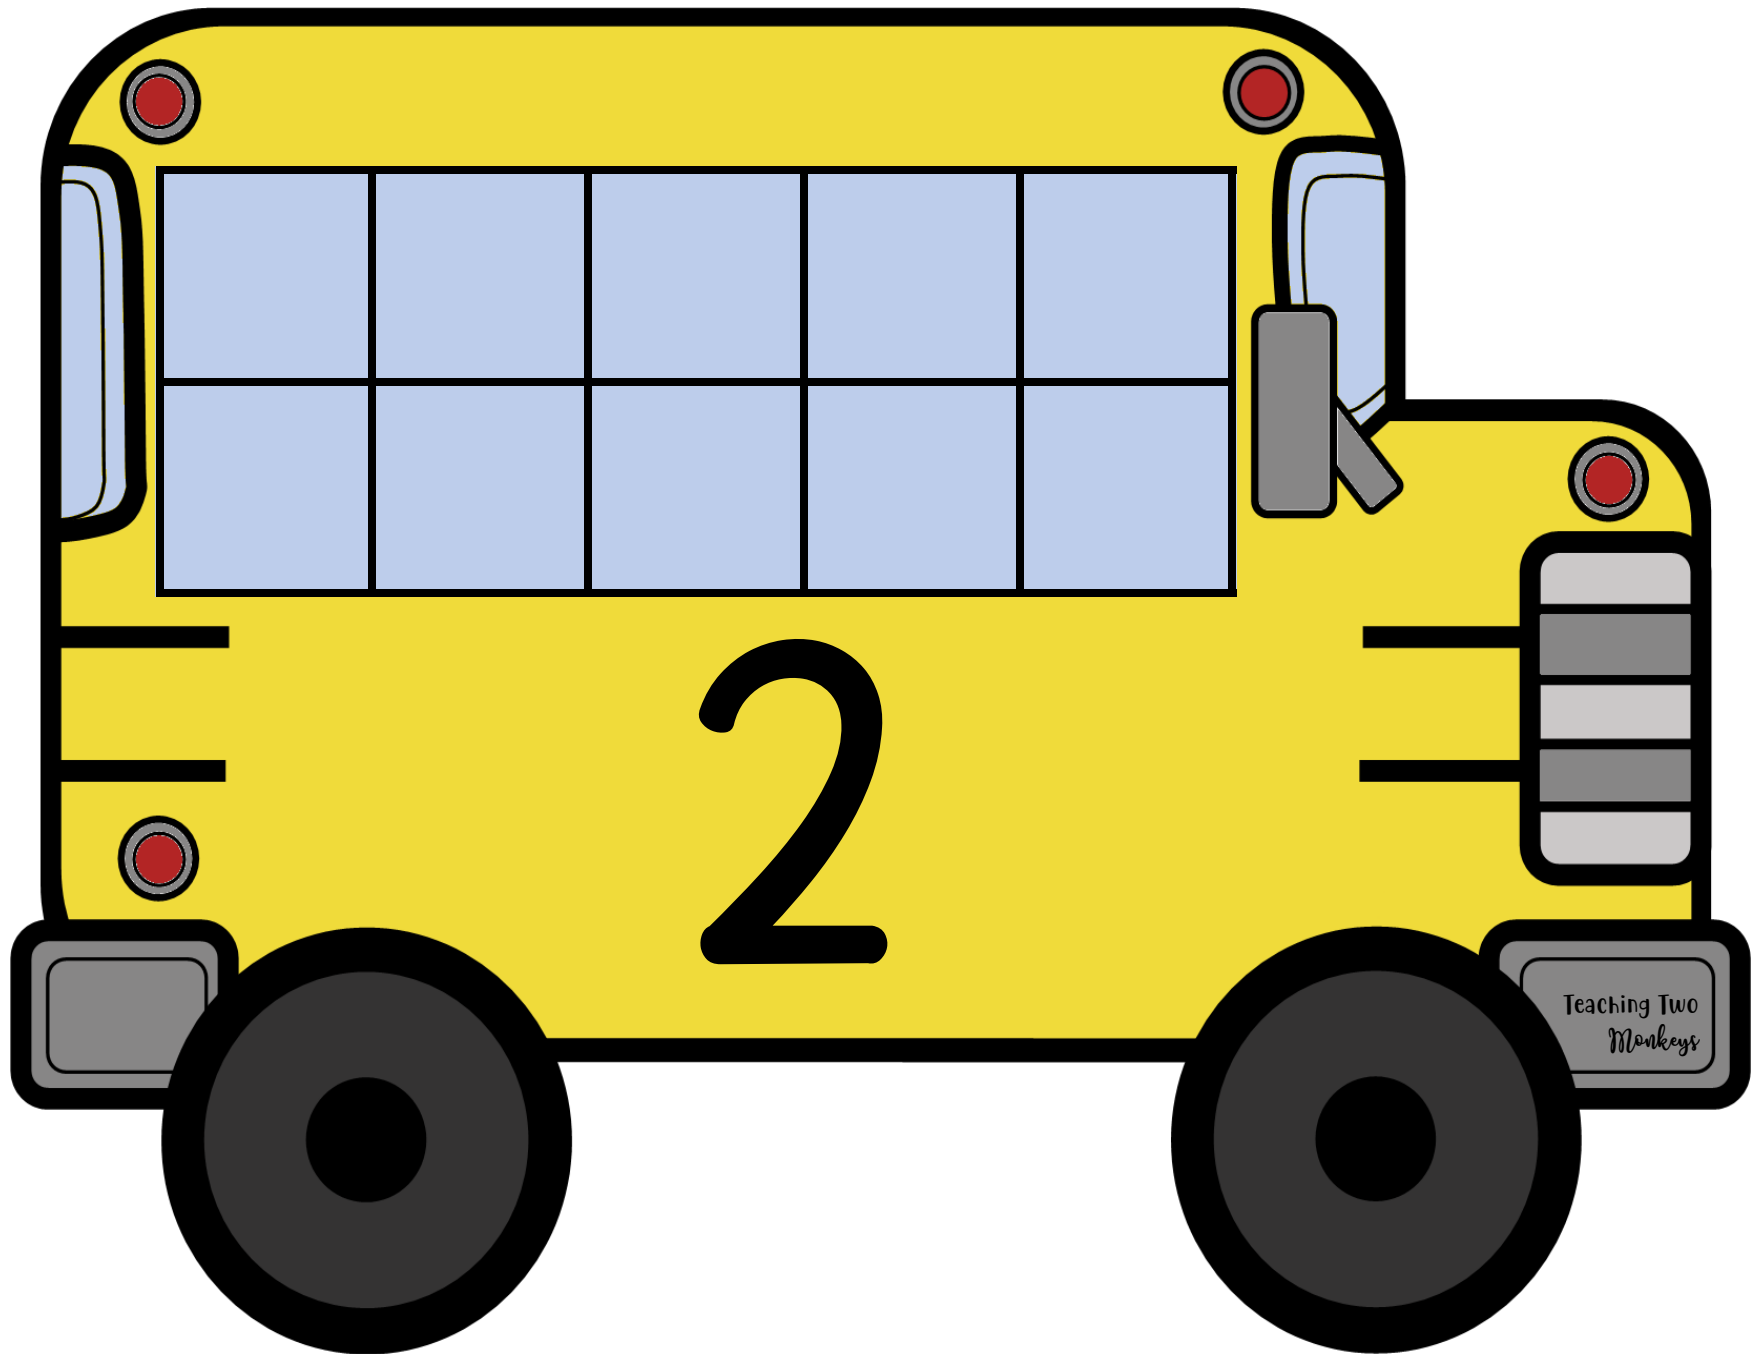

Use this activity in your back to school center, math center, morning math tub, preschool room, kindergarten back to school, homeschool, SPED, etc.
